PUBLIC HEARING
Comprehensive Plan: 2007 Amendments

This being the date set and proper notices having been posted and published in accordance with local and State laws, Mayor Keolker opened the public hearing to consider the 2007 amendments to the Comprehensive Plan, Maps and Data; concurrent rezoning; prezoning for potential annexation areas; and zoning text amendments to City Code development regulations. Planning Manager Lind and Senior Planner Conkling reviewed the privately-proposed and City-initiated amendments.

2007-M-01, LUA-06-160, 326 Park Ave. N., Alan Kunovsky. Ms. Lind stated that the Planning Commission recommends approval of the proposed change in land use map designation for this .89-acre site from Residential Medium Density with R-10 zoning to Commercial Neighborhood (CN) with concurrent CN zoning. She noted that the proposal includes zoning text amendments related to parking.

2007-M-02, LUA-06-161, Rainier Ave. S. and Hardie Ave. SW, O'Farrell Properties, LLC. Ms. Lind reported that the Planning Commission recommends approval of the proposed change in land use map designation for 1.6 acres from Residential Medium Density with R-10 zoning to Commercial Corridor with concurrent Commercial Arterial zoning. She pointed out that the proposal includes zoning text amendments to expand the Rainier Business District Overlay and to modify the allowed residential density.

2007-M-03, LUA-06-166, Maple Valley Hwy. Corridor, City of Renton. Ms. Lind said the Planning Commission recommends approval of the proposed changes in land use map designations for 284 acres (New Life - Aqua Barn Annexation site) in Renton's Potential Annexation Area. Changes include: Residential Low Density (RLD) to Residential Medium Density with R-14 and Residential Manufactured Home prezoning, and RLD to Residential Single Family with R-8 prezoning. Remaining RLD areas to be prezoned Resource Conservation and R-4.

2007-M-05, LUA-06-167, SW Sunset Blvd., QIP and Virtu Properties. Ms. Conkling reported that the Planning Commission recommends approval of the proposed change in land use map designation for 8.71 acres from Employment Area - Industrial with Heavy Industrial zoning to Residential Medium Density (RMD) with R-10 zoning, and for .91 acres from Residential Multi-Family to RMD with R-10 zoning. She stated that this proposal will not encroach upon the Black River Riparian Forest property, and the Washington Department of Fish and Wildlife has provided a list of recommended site planning and construction controls that will be discussed during the project level review.

2007-M-06, LUA-06-164, Benson Hill Communities, City of Renton. Ms. Lind reported that the Planning Commission recommends approval of the proposed changes for large portions of the 2,438-acre Benson Hill Communities Annexation area with concurrent prezoning. Changes include: Residential Single Family with R-8 prezoning; Residential Medium Density with R-10, R-14, and Residential Manufactured Home prezoning; Residential Low Density with Resource Conservation, R-1, and R-4 prezoning; Residential Multi-Family
prezoning; and Commercial Corridor with Commercial Arterial and Commercial Office prezoning.

2007-M-07, LUA-06-165, Duvall Ave. NE Corridor, 10625, 10703, 13645, and 10733 138th Ave. SE, City of Renton. Ms. Lind stated that the Planning Commission recommends denial of the proposed changes in land use map designation from Residential Single Family to Commercial Corridor with Commercial Arterial prezoning for 1.01 acres (Marshall Annexation area). She indicated that the amendment is not timely for the following reasons: unknown consequences at this time from the widening of Duvall Ave. NE, and undocumented demand for new retail or services in the commercially-zoned NE Sunset Blvd. District. Ms. Lind pointed out that a review of the land use designations for the entire area, including those parcels under consideration, may be appropriate at a later date once the Duvall Ave. NE improvements are in place.

2007-T-01, LUA-06-163, Capital Facilities and Transportation Elements, City of Renton. Ms. Lind said the Planning Commission recommends approval of the bi-annual update of the elements to incorporate and update the level of service information and capital facility projects lists, to amend text and tables summarizing growth, and to update and correct descriptive narrative.

2007-T-05, LUA-06-125, Land Use Element, City of Renton. Ms. Lind reported that the Planning Commission recommends approval to update this element to allow Residential Manufactured Home zoning to be an implementing zone with Residential Low Density land use designation. Ms. Lind explained that a number of properties are still in King County, and any property owners who wish to develop these properties may consider vesting under King County's current zoning prior to the potential annexation of the properties to Renton. In conclusion, she stated that Council action is not requested at this time.

Correspondence was read from Lan Wang, Frank Song, and Hao Wu of Washington Investment LLC (Bellevue) who own the 30-unit Panther Creek Apartment complex located at 19235 108th Ave. SE (2007-M-06). The correspondents noted that the property is zoned R-48 in King County and is recommended for R-14 zoning in Renton. The correspondents requested that the proposed prezoning be changed from R-14 to Residential Multi-Family.

Correspondence was read from Jack Connell, Facilities Project Manager, Renton School District (Renton), requesting that school district property always be accompanied with the “P” suffix to trigger the special overlay development criteria typical to this public school land use designation (2007-M-06).

Public comment was invited.

Charles Grass (Renton), who owns property at 10733 138th Ave. S. in the Marshall Annexation area (2007-M-07), pointed out that most commercial properties located in the immediate vicinity of Sunset Blvd. and Duvall Ave. NE are occupied. Mr. Grass requested that Council approve the zoning designation change to his property and to the parcel to the north, primarily because they are surrounded by commercial properties. He indicated that delaying establishment of the zoning status leads to delays in the planning and
permitting process for his property.

Carolyn Strong (Seattle) introduced herself as the real estate agent who listed the previous speaker's property. She noted the number of people interested in purchasing the property for commercial use. Ms. Strong indicated that the sale of the property is crippled in its current residential state, and she requested that the property be prezoned commercial at this time.

In response to the inquiries of David Gleason (King County), Ms. Lind confirmed that condominiums are allowed in the R-14 zone, and that vesting under King County zoning is allowed until the effective date of the annexation.

Mary Urback (Puyallup), who represents the O'Farrell properties (2007-M-02), agreed with the proposed Commercial Arterial zoning and related zoning text amendment to allow 60 units per acre. Ms. Urback urged approval of the Planning Commission's recommendation.

Lan Wang, Washington Investment LLC (Bellevue), stated that he is an owner of the Panther Creek Apartments in the Benson Hill Communities Annexation area (2007-M-06). He indicated that the proposed prezoning from R-48 to R-14 will render the property non-conforming; thus reducing its market value and limiting the owners' ability to rebuild and secure bank loans. Mr. Wang requested that the property be prezoned Residential Multi-Family, and that the City issue a rebuild letter stating that the owners can rebuild at the same size and height as the current building in case it is destroyed.

In response to Councilmember Corman's inquiry, Mr. Wang stated that the building is denser than the R-14 zoning allows.

Brent Cawley (King County) spoke against the proposed prezoning for the Maple Valley Hwy. Corridor area (2007-M-03). He explained that his property at 150th Lane SE, along the Matson Creek Bypass, is subject to flooding due to the ill-management of surface water runoff from Fairwood down the bypass into the Cedar River. Mr. Cawley noted that the water from overflowing storage ponds ends up on his property, and emphasized that development will only increase the non-permeable surfaces. If this action moves forward, he asked that the City go above and beyond the current surface water runoff and storage pond plans.

Jeff Wolfson (Kent) stated that his property, located west of 108th Ave. SE in the Benson Hill Communities Annexation area (2007-M-06), will be negatively affected by the proposed zoning change from R-12 to R-8. He noted that the land value will decrease, that the area has the infrastructure to support the density, and that the proposal is not equitable. Mr. Wolfson asked that his property be prezoned R-14 as is proposed for nearby properties.

David Halinen (Fircrest), who represents Quarry Industrial Park (QIP), LLC in the matter of 2007-M-05, submitted a letter and documentation to the Council in support of the amendment.

Christopher Wagner (King County), who is a resident of the Huntington Heights Condominium (SE 176th St.) in the Benson Hill Communities Annexation area (2007-M-06), stated his preference to not abut commercial property. He inquired as to the current prezoning recommendation for the church-owned parcel to the west of the condominium. Ms. Lind stated that the church prefers that the property remain commercial.

Jennifer Knickerbocker (Renton) expressed concern that the proposed rezoning
on Park Ave. N. from residential to commercial (2007-M-01) may negatively affect her neighborhood due to the increase in traffic.

Frank Song, Washington Investment LLC (Bellevue), said he is an owner of the Panther Creek Apartments in the Benson Hill Communities Annexation area (2007-M-06). Mr. Song pointed out that the prezone from R-48 to R-14 will reduce the value of the property. He stated that the area is not conducive to single-family zoning, and properties to the north and east are commercially zoned.

Responding to the inquiries of Mayor Keolker and Council President Nelson, Mr. Pietsch reported that the Planning and Development Committee will continue to review the matter and then present a final recommendation to the full Council. He indicated that if Council chooses to do so, the amendments would need to be adopted by the end of the year.

There being no further public comment, it was MOVED BY NELSON, SECONDED BY CORMAN, COUNCIL CLOSE THE PUBLIC HEARING. CARRIED.

Councilmember Corman commended Stonegate Homeowners Association and Langley Ridge for reaching an agreement on the easement.
