AUDIENCE COMMENT

Citizen Comment: Russell – Index Pl NE, A&D Quality Construction Company, VAC-07-001

Kevie Russell, 2906 NE 7th St., Renton, 98056, spoke on the topic of the vacation of a portion of Index Pl. NE. He objected to the City’s retainage of a 15-foot-wide strip, which is to be used for a walkway, out of the east portion of the right-of-way that is to be vacated. He noted the existence of a pedestrian right-of-way one building lot away from his house, saying that two parallel walkways are not necessary. Pointing out that the vacation will make an unattractive, junk-car and litter-attracting area, a productive area, Mr. Russell requested that the Council equally divide the right-of-way.

Citizen Comment: McOmber – Index Pl NE, A&D Quality Construction Company, VAC-07-001

Howard McOmber, 425 Olympia Ave. NE, Renton, 98056, displayed photographs of the portion of Index Pl. NE under consideration for vacation. Mr. McOmber asked Council to vacate the entire area and to accelerate the process. He stated that Index Pl. NE is not an asset for the Highlands neighborhood and objected to the current proposal to retain a 15-foot-wide easement for a pedestrian right-of-way when another pedestrian walkway already exists near the vacation area. (See page 281 and 283 for further discussion on this matter.)

Citizen Comment: Ellifrits – T-Mobile Monopole Placement, SE 3rd Pl, CU-07-065

Newton Ellifrits, 4218 SE 3rd Pl., Renton, 98059, expressed his opposition to T-Mobile’s proposal to locate a cell phone tower in his neighborhood. Mr. Ellifrits also asked if there were any ordinances restricting the placement of cell phone towers in residential neighborhoods.

City Attorney Warren commented that the Environmental Review Committee is currently reviewing the application for the cell phone tower. He indicated that a decision from the Development Services Director should be available within the next couple of weeks.

Chief Administrative Officer Covington stated that an ordinance does not exist that specifically prohibits monopoles from residential neighborhoods, but noted that staff reviews each application for potential impacts to neighborhoods.

Councilmember Corman reflected on the past and present efforts of Council and staff to enforce rules regarding cell phone towers as allowed by Federal regulations. He stated his assumption that companies applying for these types of permits would know that placement of monopoles in commercial areas was preferred over residential areas.

Noting that the report concerning the vacation of Index Pl. NE is being held in Committee, Councilmember Briere commented on the location of the 15-foot walkway easement, the agreement between the two affected property owners, the existence of other walkways in the area, and the Trails and Bicycle Master Plan study. She indicated that within approximately one year, the City should...
know the results of the trail study, and at that point affected property owner Kevie Russell could petition for a vacation of the easement-affected property if it was found that the City did not need the easement.

Responding to Councilmember Corman’s questions, Ms. Briere confirmed that by upholding Council’s approval of the vacation petition, which includes retention of an easement for a walkway, one property owner can move forward with his project and the other must wait. Ms. Briere noted that she wants the Committee report to reflect that the filing fees for Mr. Russell’s future vacation petition will be waived.

Councilmember Clawson noted that neither party would benefit if the property were vacated down the middle. (See page 283 for further discussion on this matter.)

Councilmember Persson inquired about the status of the complaint of noise emanating from the RiverRock Restaurant at Maplewood Golf Course. complainant not allowing City employees on his property. AUDIENCE COMMENT

Citizen Comment: Demps - Index Pl NE, A&D Quality Construction Company, VAC-07-001

Keith Demps, 2308 NE 24th St., Renton, 98056, spoke on the issue of his request to vacate a portion of Index Pl. NE. Indicating that he has already gone through the vacation process, Mr. Demps asked Council to consider vacating the entire area, rather than retaining a portion for a walkway, as it is holding up his development project. He also noted the existence of another trail that is approximately 150 feet away from the vacation area.

Discussion ensued regarding the appropriateness of vacating the entire area while the Trails and Bicycle Master Plan study is pending, the need for two walkways in the area, concern about short-circuiting the study, providing for input from the Highlands neighborhood, accelerating the walkway study, the benefits of the potential development projects, the possibility of allowing a variance due to the lot sizes, the underlying ownership of the property, and the need for the City to clean up and maintain the property.

Chief Administrative Officer Covington stated that the Trails and Bicycle Master Plan study is to be discussed at the Committee of the Whole meeting on August 20, and staff will be prepared to discuss this specific area.
