He explained that a task force convened by Executive Sims recommended the establishment of a multi-county regional transportation authority with planning and funding responsibility for key state and regional roadway projects and related regional transit projects. Mayor Tanner recommended that the City pursue finding out more about this effort and recommended that the matter be referred to Committee of the Whole. He offered to arrange for King County to brief Council on the impact this may have on the City’s transportation funding.

OLD BUSINESS
Committee of the Whole
Budget: 2001

Council President Corman presented a report recommending that the City Council adopt the 2001 Budget in the total amount of $128,379,675.

The Committee further directed the following issues be addressed:

a. The Administration needs to provide the definition and number of contract workers.

b. The Budget document shall illustrate consistency in publication with different types of employees.

c. The Administration shall resolve the discrepancy in the Capital Improvement Program (CIP) concerning the Performing Arts Center, and report on the extra $100,000 shown in the Budget document.

d. The Carry Forward Ordinance provided to the Council in the first quarter of 2001 shall include at least $2.3 million for the Pavilion Building.

e. The Council refers the question on the need for an animal control officer to the Public Safety Committee for further discussion in 2001.

f. The Council refers the question of additional staff for the Council to be discussed at the Council retreat.

This Budget includes 5.5 new positions. In addition, the 2001 Budget increases the neighborhood program by $32,000 to provide more funding for neighborhood picnics. The Budget increases the Centennial Program for a total budget of $106,000 in 2001. The 2001 Budget continues the City’s obligations to the Performing Arts Center in the amount of $200,000 and the construction of a new South County Regional 911 Center in the amount of $300,000. Further, the Budget continues the City’s commitments to Port Quendall, the
Highlands, Marketing Plan and Endangered Species Act.

While there are many additional needs in the City, it is important to note that in context of Initiative 722 the City needs to proceed with caution. This Initiative not only puts at risk up to $797,000 of current revenue but may cause the City to repay $250,000.

The 2001 Budget assumes the property tax rate will remain no higher than $3.40 per $1,000. The Council concurs with the use of fund balances to meet possible needs in the context of Initiative 722.

The Committee further recommended the ordinance regarding this matter be presented for first reading.

MOVED BY CORMAN, SECONDED BY CLAWSON, COUNCIL CONCUR IN THE COMMITTEE REPORT.*

Councilmember Keolker-Wheeler clarified that the money for the Pavilion Building will be included in the Capital Improvement Program (CIP).

*MOTION CARRIED.

Community Services Committee Chair Nelson presented a report regarding the Hanging Basket Beautification Program. The Community Services Committee recommended initiating a Hanging Flower Basket Program to include one time start up costs of container acquisition, arm fabrication and installation, and annual costs of planting and maintenance.

The Committee further recommended that this matter be referred to Council for the allocation of $30,000 in the 2001 budget. MOVED BY NELSON, SECONDED BY CORMAN, COUNCIL CONCUR IN THE COMMITTEE REPORT. CARRIED.

Councilmember Nelson reported that 100 hanging baskets will be placed along S. 2nd, S. 3rd and S. 4th Streets. Ms. Nelson expressed her appreciation to the Parks Department staff for their efforts in determining which poles will handle the weight of the hanging baskets.

Utilities Committee Chair Clawson presented a report recommending the adoption of the 2000 Solid Waste Rates Ordinance as amended by the Committee. This ordinance increases yard waste to weekly pick up for no additional cost. It also adds new services for our residential and commercial customers.

The Committee amended the ordinance for bulky goods pickup. The costs will be as follows: A trip charge of $20.00 and then a $10.00 per item charge for white goods, sofas, chairs, mattresses and box springs. Refrigerators and freezers require additional costs to remove harmful chemicals. They can now be picked up for a $20.00 trip charge plus $35.00 per item. MOVED BY CLAWSON, SECONDED BY KEOLKER-WHEELER, COUNCIL CONCUR IN THE COMMITTEE REPORT. CARRIED.

Utilities Committee Chair Clawson presented a report recommending the 2001 Solid Waste Rates Ordinance be adopted as proposed with amendments for bulky goods pickup and compactor rates.

In 2001, rates for most residential and commercial services will increase by 5 percent. In addition, the Committee concurred with the recommendation to
create two types of subsidies for low-income seniors. Based on federal rules, an individual can receive a 75 or 40 percent subsidy on a mini-can service.

The Committee also concurred with the recommendation to decrease the compactor rates to reflect the new costs as identified by the contractor.

Finally, the Committee changed the ordinance to reflect the new rates for bulky goods. Bulky goods can now be picked up at the curbside for a $20.00 trip fee and a per item cost of $10.00 for sofas, chairs, white goods, mattresses and box springs. Refrigerators and freezers have a $35.00 per item cost in addition to the trip fee. MOVED BY CLAWSON, SECONDED BY KEOLKER-WHEELER, COUNCIL CONCUR IN THE COMMITTEE REPORT. CARRIED.

Utilities Committee Chair Clawson presented a report recommending that Council adopt the Utility System Development Charges for the Water, Wastewater, and Surface Water Utilities (column 2 in table below), plus changes in the associated ordinance.
