**Committee of the Whole**

**Parks: Pavilion Building Feasibility Analysis, Columbia Hospitality, CAG-99-**

Council President Parker presented a Committee of the Whole report recommending that Council authorize the Administration to enter into a contract with Columbia Hospitality (CRG Hospitality) to complete the Phase I feasibility analysis and report for the Pavilion building at a cost of $34,760 (including $29,760 for approximately 310 hours of professional time plus an estimate of $5,000 for expenses, including architect consultation). Staff will report back to the Committee of the Whole in March of 2000. MOVED BY PARKER, SECONDED BY SCHLITZER, COUNCIL CONCUR IN THE COMMITTEE REPORT. CARRIED.

**Budget: 2000**

Council President Parker presented a Committee of the Whole report recommending that Council adopt the 2000 Budget as proposed, with the following changes:

**Proposed Budget** – $141,480,291

**Adds:**

- Fund 316: Skateboard Park – $150,000
- Fund 215: Transfer of excess fund balance to Fund 316 as revenue ($820,000)
- Fund 207: Transfer of excess fund balance to Fund 316 as revenue ($35,000)
- Fund 221: Transfer of excess fund balance to Fund 316 as revenue ($100,000).

**Total Appropriations:** $142,585,291.

To cover the cost of I-695 and Council’s decision not to increase the card room tax as proposed by the Mayor, the allocation of the property tax revenue in Fund 316 will now be made in the General Fund. The transfer of excess fund balances as illustrated above will substitute for the property tax allocation in Fund 316.

The Council also increases revenues to Fund 316 from property sale proceeds to met the additional requirements of adding an appropriation for the Skateboard Park.

The Committee further recommended that the ordinance regarding this matter be presented for first reading. MOVED BY PARKER, SECONDED BY NELSON, COUNCIL CONCUR IN THE COMMITTEE REPORT. CARRIED. (See page 431 for ordinance.)

**Finance Committee**

**Finance: Vouchers**

Finance Committee Chair Edwards presented a report recommending approval of Payroll Vouchers 23000 - 23223 and 514 direct deposits in the total amount of $962,235.78. MOVED BY EDWARDS, SECONDED BY NELSON, COUNCIL CONCUR IN THE COMMITTEE REPORT. CARRIED.

**Planning & Development Committee**

**Development Services: A-Frame Signs**

Planning & Development Committee Chair Keolker-Wheeler presented a report regarding A-Frame signs. The Committee met four times to consider the staff, Sign Code Review Team, and citizen input concerning amendment of the City’s Sign Code. A public hearing on this issue was held on September 27, 1999. The Committee recommended that the Administration prepare an ordinance amending the sign regulations for environmental review and consideration by the Council that incorporates the following recommendations:

1. A-Frame Signs should be permitted: A-Frame Signs should be allowed for businesses city-wide subject to the proposed standards.
2. Permit process should be streamlined: The Committee recommended that temporary signs have a simplified permit application form and process, separate from permanent signs.

3. Evaluation of regulations in one year: The Committee recommended that staff keep record of the number of permits issued, complaints and enforcement issues and report back to the Council in one year. At that time, the Council can determine to retain the A-Frame Sign regulations, modify the regulations, or eliminate the program if necessary.

Item L in the proposed standards regarding removal of A-Frame Signs upon the daily close of business is the subject of a split Committee report:

Option 1: Require Daily Removal of A-Frame Signage: A-Frame signs are considered to be temporary signs, however, if these signs were to remain in use 24 hours a day, they would essentially become permanent signs. We are concerned that if problems should arise with a sign after the close of business, there would be no one representing the business to deal with the issues. Further, removal of the signs during non-business hours would reduce the amount of City liability by reducing the amount of public exposure to the signs. In addition, removal upon close of business would reduce the amount of sign clutter during the times when the business is not open. With Council concurrence, we would request that the Administration prepare an ordinance amending the sign code which includes a requirement for daily removal of A-Frame signs during non-business hours.*

Option 2: Do Not Require Daily Removal of A-Frame Signage: During the enforcement moratorium, and even longer for some businesses, a number of businesses have displayed these signs for 24 hour periods with no reported problems. I maintain that we should try permitting A-Frame signs on a 24 hour basis. Then, if there are problems that arise, they can be addressed by Council when this issue is revisited again in a year. With Council concurrence, I would request that the Administration prepare an ordinance amending the sign code which does not include a requirement for daily removal during non-business hours.

*MOVED BY KEOLKER-WHEELER, SECONDED BY CLAWSON, COUNCIL CONCUR IN THE COMMITTEE REPORT WITH OPTION #1.**

Councilman Edwards supported Option #1 which would require daily removal of A-Frame signs, since such signs are made to be portable and meant to be temporary rather than permanent in nature. Councilmember Nelson agreed, saying that A-Frame signs should be removed to the interior of the business during non-business hours.

While Councilman Corman also supported Option #1, he suggested that the City look into allowing small, permanent directional signs for stores located some distance from the street entrance; for example, in a strip mall. He felt that A-Frame signs should not be used as directional signage.

Councilman Schlitzer said while some concerns have been expressed regarding A-Frame signs, the question of whether they should be able to be displayed around the clock was never an issue. He said many A-Frame signs have been left out all day and night in the past without any problems or complaints.

Councilmember Keolker-Wheeler responded that daily removal of A-Frame signs will help lessen visual clutter in the City. She added that the presence of
an A-Frame sign makes it appear as if the business is open, when it may not be. Saying he is a proponent of A-Frame signs, Council President Parker said these should be an asset to Renton rather than a liability. He supported Option #1 in the spirit of compromise, since the City will be allowing A-Frame signs rather than prohibiting them.

**MOTION CARRIED TO APPROVE THE COMMITTEE REPORT WITH OPTION #1.**

Ms. Keolver-Wheeler expressed appreciation to the Sign Code Review Team which was able to formulate recommendations despite the various and sometimes competing views its members brought to the table. She also thanked staff for having done a tremendous amount of work on this project.

AUDIENCE COMMENT

Citizen Comment: Shorter – Churches as Conditional Uses; Process and Requirements

Don Shorter, 4528 – 20th Ave. Ct. SE, Puyallup, 98022, cited City of Renton Development Regulations section 4.2.070.m, which states that churches, synagogues and temples are Hearing Examiner conditional uses in the Center Downtown zone. Conditional uses are subject to application fees, and they must undergo a lengthy review process which involves the submittal of such documentation as a drainage control plan, a drainage report, architectural elevations, an environmental checklist, a geotechnical report, a conceptual landscaping plan, a screening detail for refuse/recycling matter, a wetlands delineation map, etc. Saying that such requirements are cumbersome for churches, Mr. Shorter added that while he understood the need to ensure the safety of buildings that are used for public assembly, the aforementioned requirements are not applied to movie theatres which could also be construed as public gathering places.

Councilman Corman clarified that while churches are allowed in many areas of Renton, they are indeed often subject to conditional use requirements. He wondered if these would be more appropriately applied to new construction rather than to existing buildings which appears to be the specific case to which Mr. Shorter is referring. Councilman Schlitzer assured Mr. Shorter that Renton is not against churches; however, the City’s requirements and conditions which relate to this type of use exist for many reasons. He agreed it would be beneficial to review these reasons, emphasizing that Renton does not seek to impose onerous requirements.

MOVED BY CORMAN, SECONDED BY SCHLITZER, COUNCIL REFER THIS MATTER TO THE PLANNING & DEVELOPMENT COMMITTEE. CARRIED.

Councilmember Keolker-Wheeler requested that staff provide the committee with all current regulations pertaining to churches in advance of its meeting on this subject.
