Committee of the Whole Comprehensive Plan West Hill Removal from Potential Annexation Area

Community Services Committee Building Rainier Christian Schools Fee Waiver Request

Community Services Committee Chair Nelson presented a report regarding a fee waiver request from Rainier Christian Schools. Rainier Christian Schools requested a waiver of fees associated with the processing of a Hearing Examiner conditional use permit and environmental review for a day care center. Rainier has been operating a day care primarily for the children of staff members, or siblings of students attending Highlands Christian School, which is located on the same site. Staff reviewed the proposal for a day care in the R-8 zone, and determined that the day care met the definition for a "family day care" since 12 or fewer children would be cared for in a 24-hour period. Family day care is permitted as an accessory use in the R-8 zone, and no separate land use permits are required. However, according to State law, a family day care requires that an adult reside in the structure where the day care operates. Since no adult resides permanently on the premises, the day care technically does not meet the City's definition of a "family day care," but rather is defined as a "day care center." In the R-8 zone, a Hearing Examiner conditional use permit and environmental review are required for day care centers.

Due to an oversight in the interpretation of the City's definition of "family day care," and based on estimates from staff to process the application, the Committee recommended that Rainier Christian Schools be allowed to pay reduced fees for the required land use permits. The fee collected by the City may be reduced, provided that sufficient fees are recovered for staff time expended. The fee will reflect the equivalent of $75.00 per hour for staff time, per Code section 5-1-1.A.3.d. MOVED BY NELSON, SECONDED BY SCHLITZER, COUNCIL CONCUR IN THE COMMITTEE REPORT. CARRIED.

Park Board Park Rules Change re Watercraft Violations

Planning & Development Committee Planning Multi-Family Density Ranges Zoning Code Amendments

Planning & Development Committee Chair Keolker-Wheeler presented a report regarding Zoning Code amendments for multi-family density ranges. Density ranges for several multi-family areas were amended in 1996. Additional issues are currently under review in the current Code amendment review relating to the moratorium on residential development in the Center Suburban (CS), Center Neighborhood (CN), Employment Area Commercial (EAC) and Employment Area Valley (EAV) land use designations. No additional review will be required as a result of the 6/24/96 referral. However, the
Committee recommended that an open agenda bill be maintained to allow periodic update on residential issues. It is recommended that the title of this bill be "Periodic review of residential policies and implementation."

Planning Automall Expansion
Planning & Development Committee Chair Keolker-Wheeler presented a report regarding the proposed expansion of Renton's Automall. After hearing testimony from staff and the public on this issue, the Committee made the following recommendations:

1. That the proposed amendments to the use table for Area "A" be amended to include "snowmobile, lawn and garden equipment" in the Commercial Arterial (CA) zone and "existing office" in the Medium Industrial (IM) zone, and that "auto, motorcycle, snowmobile, lawn and garden equipment, and passenger truck sales" be added as primary uses and "licensing bureaus, car rentals, public parking or other uses determined by the Zoning Administrator that directly support dealerships" be added as secondary uses in the IM zone.

2. Area "B" be expanded to include all CA and IM zoned properties along SW Grady Way between Raymond Ave. SW on the west and Talbot Rd. S. on the east not included in Area "A", as well as most auto dealerships and related uses between Lind Ave. SW on the west and Shattuck Ave. S. on the east between the Burlington Northern Railroad right-of-way on the north and I-405 on the south, and all of the Puget Western site under the same Puget Sound Energy ownership including those portions currently zoned Commercial Office (CO) and proposed to be rezoned CA.

3. That Area "A" be expanded west of Lind Ave. SW along the south side of SW Grady Way but that its actual western boundary between Seneca and Raymond Aves. SW not be finalized until discussions between staff and Cummins Northwest, Inc. have been held to resolve issues relating to that company's possible future expansion to the east of Raymond Ave. SW. This issue will remain in Committee.

Utilities Committee Chair Clawson presented a report recommending concurrence in the staff recommendation
that Council approve the transfer of $505,000 from the NE 10th St./Anacortes Ave. storm system improvement project and $145,000 from the NE 10th St./Monroe Ave. storm system replacement project to the Maplewood Creek Fish Channel project budget (Account #421.000600.018.5960.0038.65.065120). The budget transfers will be completed through the year-end budget adjustments.

Due to the cancellation of City Council meetings in early August, the next scheduled Council meeting is set for August 17, 1998. The cancellation will result in a two-week delay of the bid award by Council since the project bid opening is scheduled for July 28, 1998. The project schedule is time-sensitive due to the Fisheries permit requirement to complete all construction within the ordinary high water line by no later than October 31st.

The Committee further recommended concurrence with the staff recommendation that Council authorize the Mayor to award the construction contract for the Maplewood Creek Fish Channel Project to the lowest, responsible, responsive bidder following the bid opening, provided that the following conditions are satisfied:

1. The low bid is within the revised total project budget;
2. More than one bid is received; and
3. The lowest, responsible, responsive bid contains no irregularities.

These conditions are in accordance with City Policy #250-02 regarding bidding and contracting requirements. The Planning/Building/Public Works Department shall provide an informational item report on the results of the bid opening and award at the August 17, 1998 Council meeting. Municipal Court Hiring of Court Administrator at Step D

Finance Committee Chair Parker presented a report regarding the request for a salary step change for the Municipal Court Director. The Municipal Court has offered the vacant position of Court Director to an individual with more than 11 years of experience in court administration. He currently holds the title of Fiscal Manager for Pierce County District Court #1. The court has conducted two diligent searches for a qualified court administrator, and this applicant will bring considerable experience in managing court budgets. His current compensation exceeds the "D"-step that he will be offered; however, he is interested in the broader responsibilities that this position will offer him as well as the opportunity for his skills and experiences to promote and improve our court.

The Finance Committee recommended approval of the request that the Court Director begin work with the City at step D of the salary range for this position. This has no negative budgetary impact as the former employee was at step E. The Finance Committee further recommended that Council approve the Municipal Court's request to fill the vacant Court Director position at step D of the salary range.
